

IN THE SPECIFICATION

Please insert the following paragraph after the title on page 1:

--This application is a continuation of U.S. patent application Serial No. 09/364,133, filed July 30, 1999, which is incorporated herein by reference.--

IN THE CLAIMS

Please cancel claims 1-38 and enter claims 39-73 as follows:

1-38 (cancelled)

--39. (new) A method for treating diaper rash, comprising:

providing a diaper rash treatment system comprising an atomizing spray dispenser and a diaper rash treatment composition; wherein the dispenser comprises a container and an atomizing spray delivery mechanism affixed to the container; and wherein the composition is positioned in the container;

selecting a skin treatment area selected from the group consisting of (i) a skin area normally covered by a diaper, an incontinence pad or an incontinence brief and (ii) an area featuring incontinent dermatitis;

passing the composition through the mechanism to atomize the composition and to propel the atomized composition toward the skin treatment area; and

leaving the composition on the skin treatment area to form a coating;

wherein the composition is a fluid composition having a viscosity sufficiently low to allow the composition to be atomized upon passage through the atomizing spray
